---

### Skills

- Experience and familiarity in interacting with all major operating systems.
- Significant experience with C, C++, and Python for coding. Highly adaptable to learning new coding languages and paradigms.
- Understanding of essential tools to software coding workflow, such as Git for source control and configuration of IDEs for compilation.
- Skilled at self-study & information retrieval from both digital and physical sources.
- Tenacious, hardworking, patient, and diligent.

---

### Experience

---

#### U of CO at Boulder, Computer Science Dept. / Course Assistant

JANUARY 2017 - MAY 2018, BOULDER

Provided tutoring to students seeking assistance with Computer Science courses (Introduction to Computing, Discrete Structures) in the CU Boulder Computer Science Education Lab. Assisted professor in additional tasks (exercise development, exam proctoring) as requested.

---

### Education

---

#### U of CO at Boulder / Candidate for B.S. degree in CS

AUGUST 2016 - MAY 2020, BOULDER

Currently studying Computer Science at Boulder, expected to complete bachelor's degree in 2020. Have also added applied mathematics minor and will soon apply for the Combined Bachelors/Masters program in CS, which will likely push the graduation date back one or two semesters.

---

### Awards

- Recipient of a National Merit Scholarship award and a CU Esteemed Scholars scholarship award.
- Member of CU Boulder Honors Program.
- High school cumulative GPA of 4.0+, current college cumulative GPA of 3.97.
